

SPAM GLORIOUS SPAM

WHAT IS IT? HOW DO I GET RID OF IT?

Prepared by Gary Tomlin for
Chalfonts U3A Computer Group

WHAT IS IT?

irrelevant or unsolicited messages sent over the Internet, typically to a large number of users, for the purposes of advertising, phishing, spreading malware, etc.

- It comes from anywhere in the world, can not be globally policed
- Makes money for the spammers, up to \$7,000 per day
- 45% of all emails sent are spam
- 14.5 billion spam emails are sent every single day
- Spammers receive 1 reply for every 12,500,000 emails sent

HOW DO I STOP IT?

Short Answer: You can't

Long Answer: The best you can do is to manage it and be vigilant

HOW CAN YOU PROTECT AGAINST SPAM

- Use an email service that has a good spam filter
- Check an unsolicited email **before** opening it:
 - If it goes into your spam folder, its probably spam
 - Hover over the email address does it look legitimate
 - Look at the subject line for grammatical and spelling errors
 - Is your name in the subject just your email address name (e.g. scooter162)
 - Does the subject line contain emojis
 - Have you entered a competition with a \$10,000,000 prize?
 - Do you know any African Princes?

Junk E-mail Options...

Junk Email Options

Options Safe Senders Safe Recipients Blocked Senders International

Outlook can move messages that appear to be junk email into a special Junk Email folder.

Choose the level of junk email protection you want:

- No Automatic Filtering. Mail from blocked senders is still moved to the Junk Email folder.
- Low: Move the most obvious junk email to the Junk Email folder.
- High: Most junk email is caught, but some regular mail may be caught as well. Check your Junk Email folder often.
- Safe Lists Only: Only mail from people or domains on your Safe Senders List or Safe Recipients List will be delivered to your Inbox.

Permanently delete suspected junk email instead of moving it to the Junk Email folder

Warn me about suspicious domain names in email addresses. (recommended)
