

Oceans Circulation in a Changing Climate

Wednesday, 8th September 2021 at 10.30 on Zoom

Ocean circulation in a changing climate - how small changes make big differences. The oceans are vast, covering over 70% of the planet's surface and contain 14 (followed by 17 zeros) tonnes of water. Yet a small change of a fraction of a degree in temperature can reverse the way this gargantuan mass of water moves around our planet, effecting life on land as well as in the ocean itself.

Dr. Simon Boxall is a senior lecturer in Oceanography at the University of Southampton National Oceanography Centre (UK), and heads up the science on the Cape Farewell project (capefarewell.com). He has worked on secondment for projects for UNESCO, The European Union Research Centre, The World Bank, The British Council and the European Space Agency over the years. He has a responsibility for public understanding and has been involved in documentaries for C4, Sky, BBC, National Geographic and Discovery. He regularly appears on radio and TV news and current affairs broadcasts worldwide relating to a broad range of ocean, coastal and climate issues. He is a regular contributor to Newsnight, and Radio 4's Today and PM programmes.

This talk is free of charge. Please book electronically by clicking on the 'TICKETSOURCE' icon immediately below the event on the TVN website www.u3atvnetwork.org.uk This is by far the best and easiest option. You will receive an acknowledgement immediately and the Zoom link approximately 48 hours before the event.

If you experience any difficulty, please email the organiser Gill Le Du at gill.ledu@btinternet.com giving your name and the u3a to which you belong.

Closing date for applications is Friday, 3rd September

If you have not received the Zoom link by midday on Tuesday, 7th September, please check your spam / junk box before emailing the organiser as above. DO NOT WAIT UNTIL THE DAY OF THE EVENT.

To receive notification of forthcoming TVN events as soon as they are published, please email events_info@u3atvnetwork.org.uk
