

The background features a collage of various web browser logos, including Chrome, Firefox, and Opera, rendered in a light blue and green color palette. Overlaid on this are white circuit-like patterns consisting of lines and small circles, suggesting a digital or technological theme. A central black rounded rectangle contains the main text.

WEB BROWSERS

WHAT IS A WEB BROWSER

If you want to view web pages on different websites, you will need to use a program called a 'browser'. This acts as your door to the internet. Browsers are all slightly different, but they all allow you to 'surf' the internet and access different websites.
