# Potential Windows 11 Upgrade issue

- If you plan to upgrade your existing PC and it has a “hard” disk (an HDD not an SSD) then you are going to have to spend some money to do so
  - It turns out that Windows 11 doesn't work well if your C: drive is a spinning disk (HDD) 😞

# Potential Windows 11 Upgrade issue (cont'd)

- Your options are:
  - New PC - likely the most expensive of these
  - Replace internal HDD with an SSD  
(Dave Kidner can help - GX Computers)
  - Use an external SSD and WinToUSB
    - likely the cheapest option **BUT** you have to upgrade your HDD first 🥲
